

# Assignment 1 – RDS Screenshot Evidence

Microblog Application • Amazon RDS (PostgreSQL) • microblog-lab5-rds • EC2: 3.111.37.11

**Figure 1: EC2 Microblog application – login page, confirming the app is live and running**

The screenshot shows a web browser window with the address bar displaying 'http://3.111.37.11/auth/login?next=%2F'. The page title is 'Microblog'. A light blue message box at the top says 'Please log in to access this page.' Below this is the 'Sign In' section, which includes a 'Username' label and an input field, a 'Password' label and an input field, a 'Remember Me' checkbox, and a blue 'Sign In' button. At the bottom, there are links for 'New User? Click to Register!' and 'Forgot Your Password? Click to Reset It'.

1

| DB identifier                      | Role     | Region & AZ | Replication source | Replication state | Lag |
|------------------------------------|----------|-------------|--------------------|-------------------|-----|
| <a href="#">microblog-lab5-rds</a> | Instance | ap-south-1b | -                  | -                 | -   |

Figure 4: psql session connected to the microblog database – \dt output listing all 7 schema tables

```
postgres=> \dt
Did not find any tables.
postgres=> \l
postgres=> \l
postgres=> \c microblog
psql (18.6 (Ubuntu 18.6-1.pgdg24.04+2), server 18.3)
SSL connection (protocol: TLSv1.3, cipher: TLS_AES_256_GCM_SHA384, compression: off, ALPN: postgresql)
You are now connected to database "microblog" as user "microblogadmin".
microblog=> \dt
```

| List of tables |                 |       |                |
|----------------|-----------------|-------|----------------|
| Schema         | Name            | Type  | Owner          |
| public         | alembic_version | table | microblogadmin |
| public         | followers       | table | microblogadmin |
| public         | message         | table | microblogadmin |
| public         | notification    | table | microblogadmin |
| public         | post            | table | microblogadmin |
| public         | task            | table | microblogadmin |
| public         | user            | table | microblogadmin |
